<a href="#">Grapher v13</a>	This installation is for licenses with a product key. If you have a serial number, download your software from <a href="#">MyAccount</a> . Need to deploy Grapher with SCCM or another deployment tool? Download the Grapher MSI file.	<a href="#">Download Grapher</a>

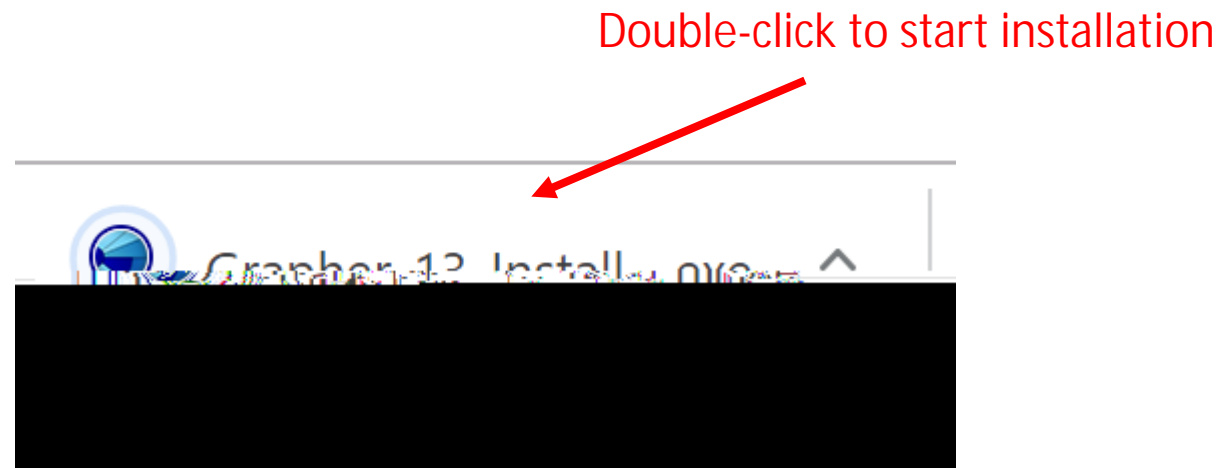

# Ignore warning

If you get the below warning page saying your institution policies suggest you should not download such file, please ignore the warning and hit proceed. This is a safe download.

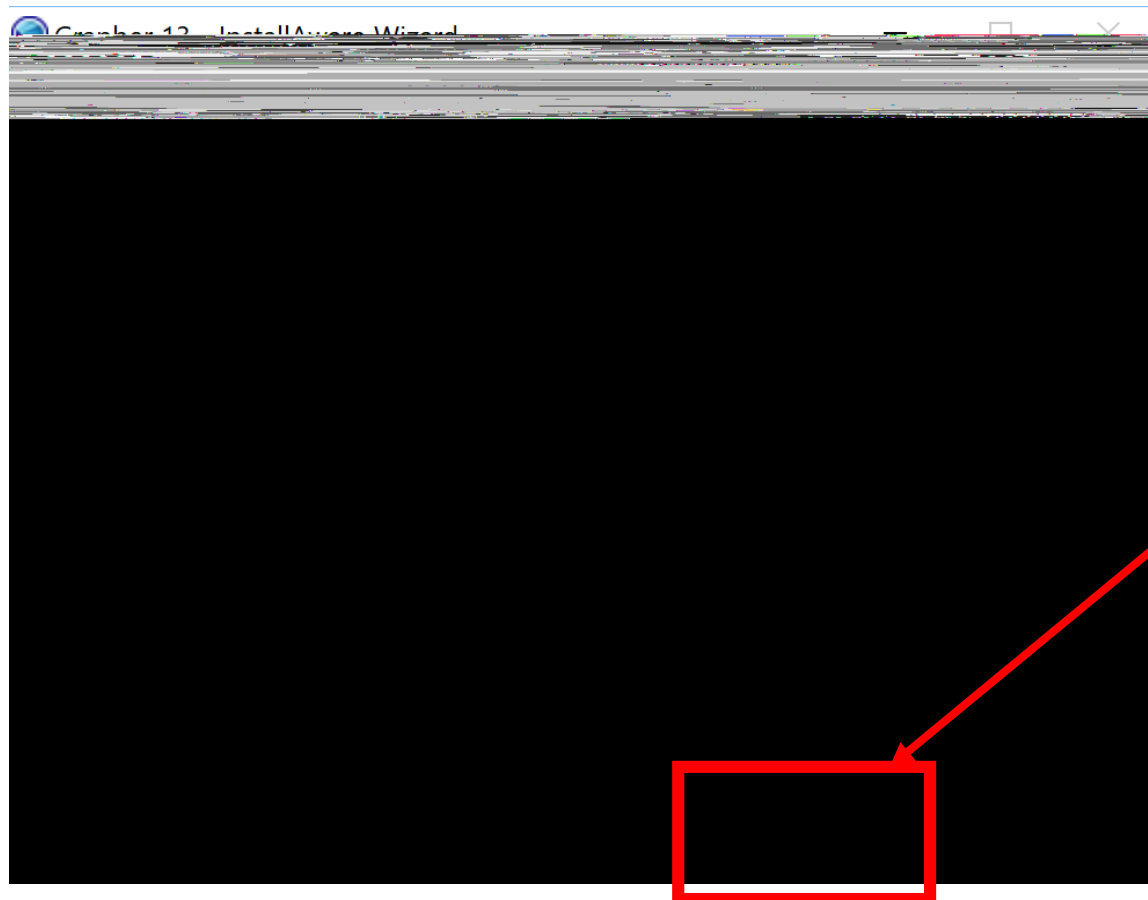

# Open the .exe installation file

Let the file download. Depending on your internet speed, it can take anywhere from 30 seconds to 5 minutes. The downloaded file will appear in your default download folder or at the bottom of your browser window as shown below.

# Installation

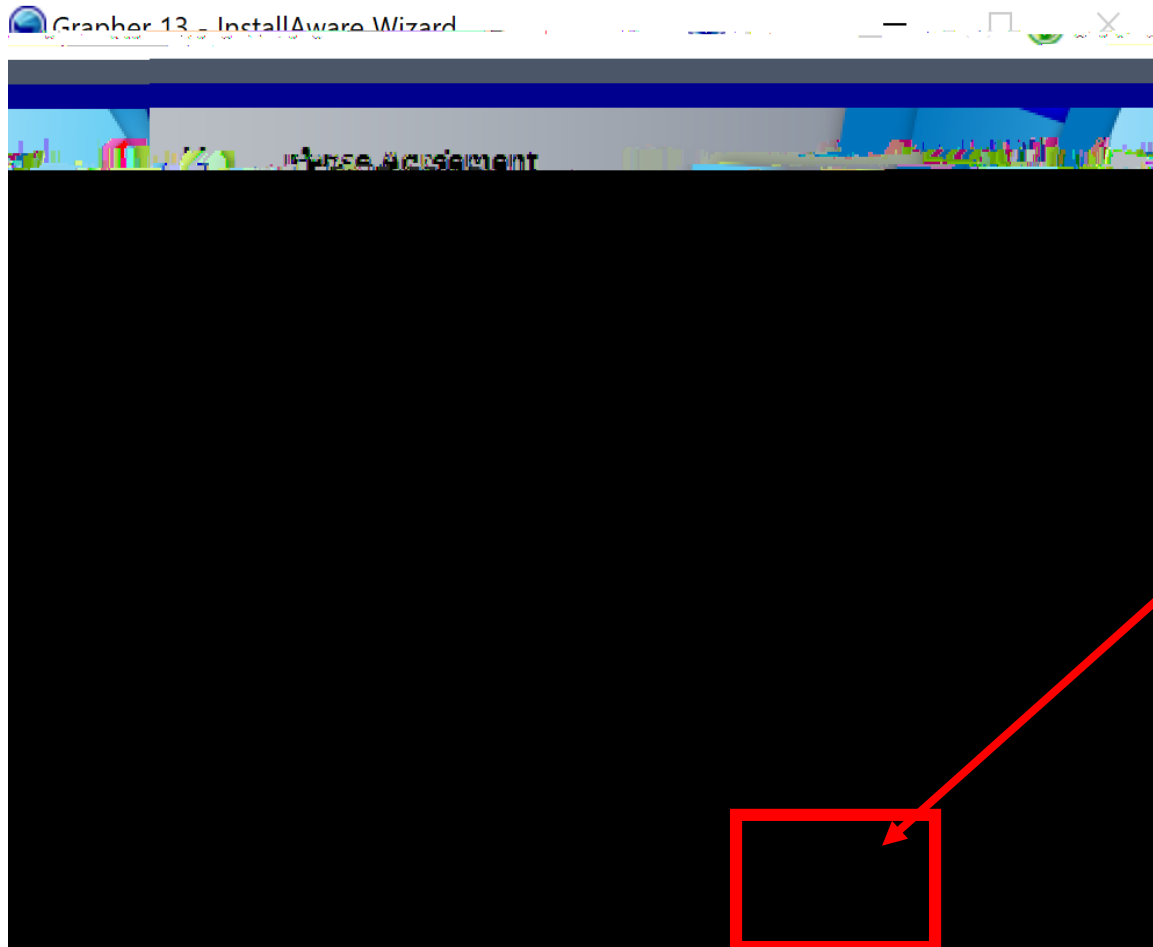

Select the correct install version (32-64-bit depending on your operating system) and click Next.

Click next to install

# Installation

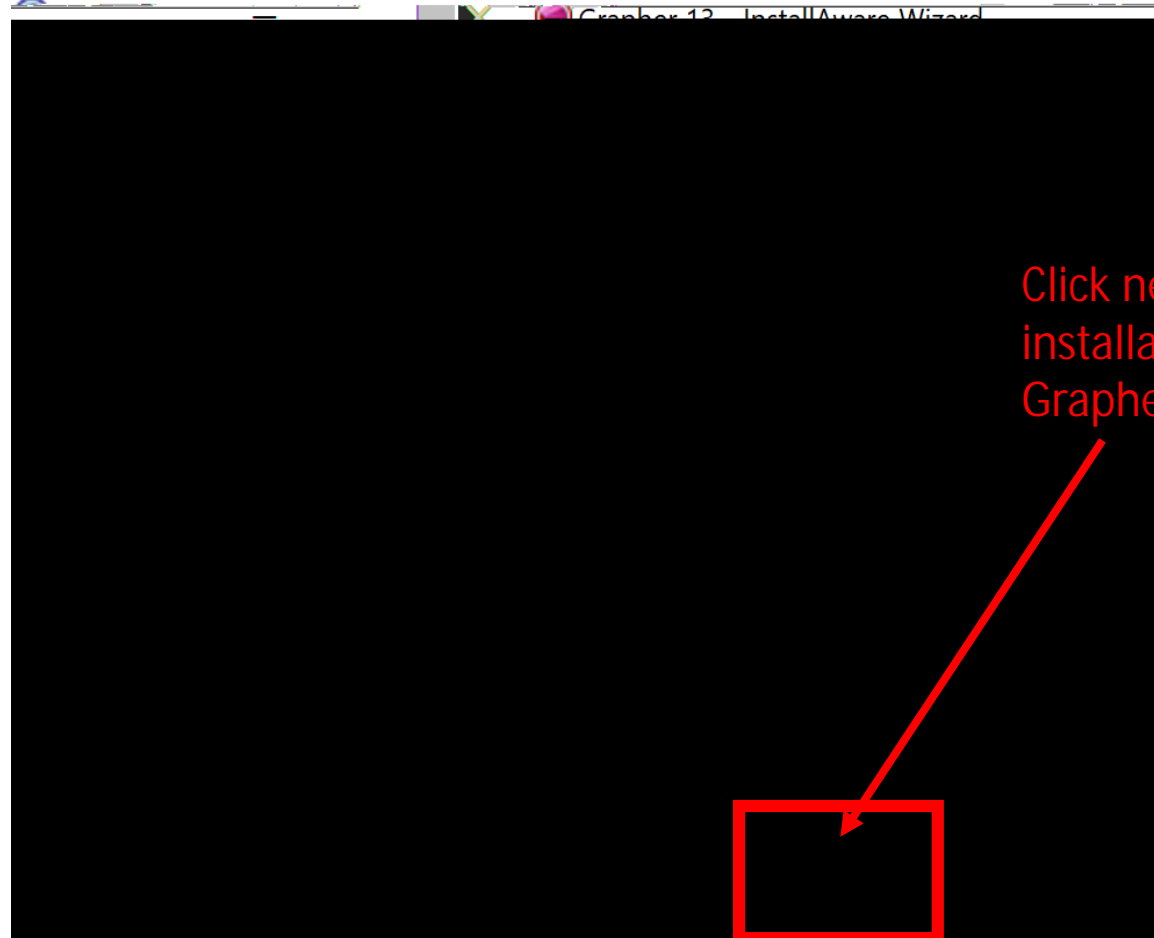

Accept the license agreement and select Next.

Click next to install

# Finish Installation

Click Next until the installation process begins. You can install it in your preferred directory. Depending on your computer, the installation should take about 5 minutes. You will see the below window once the installation is done. Select Finish and run Grapher 13.

Click next to finish  
installation and run  
Grapher 13

 Golden Software Grapher Licensing

Your trial expires in 13 days.

# Off-Campus? You need to VPN.

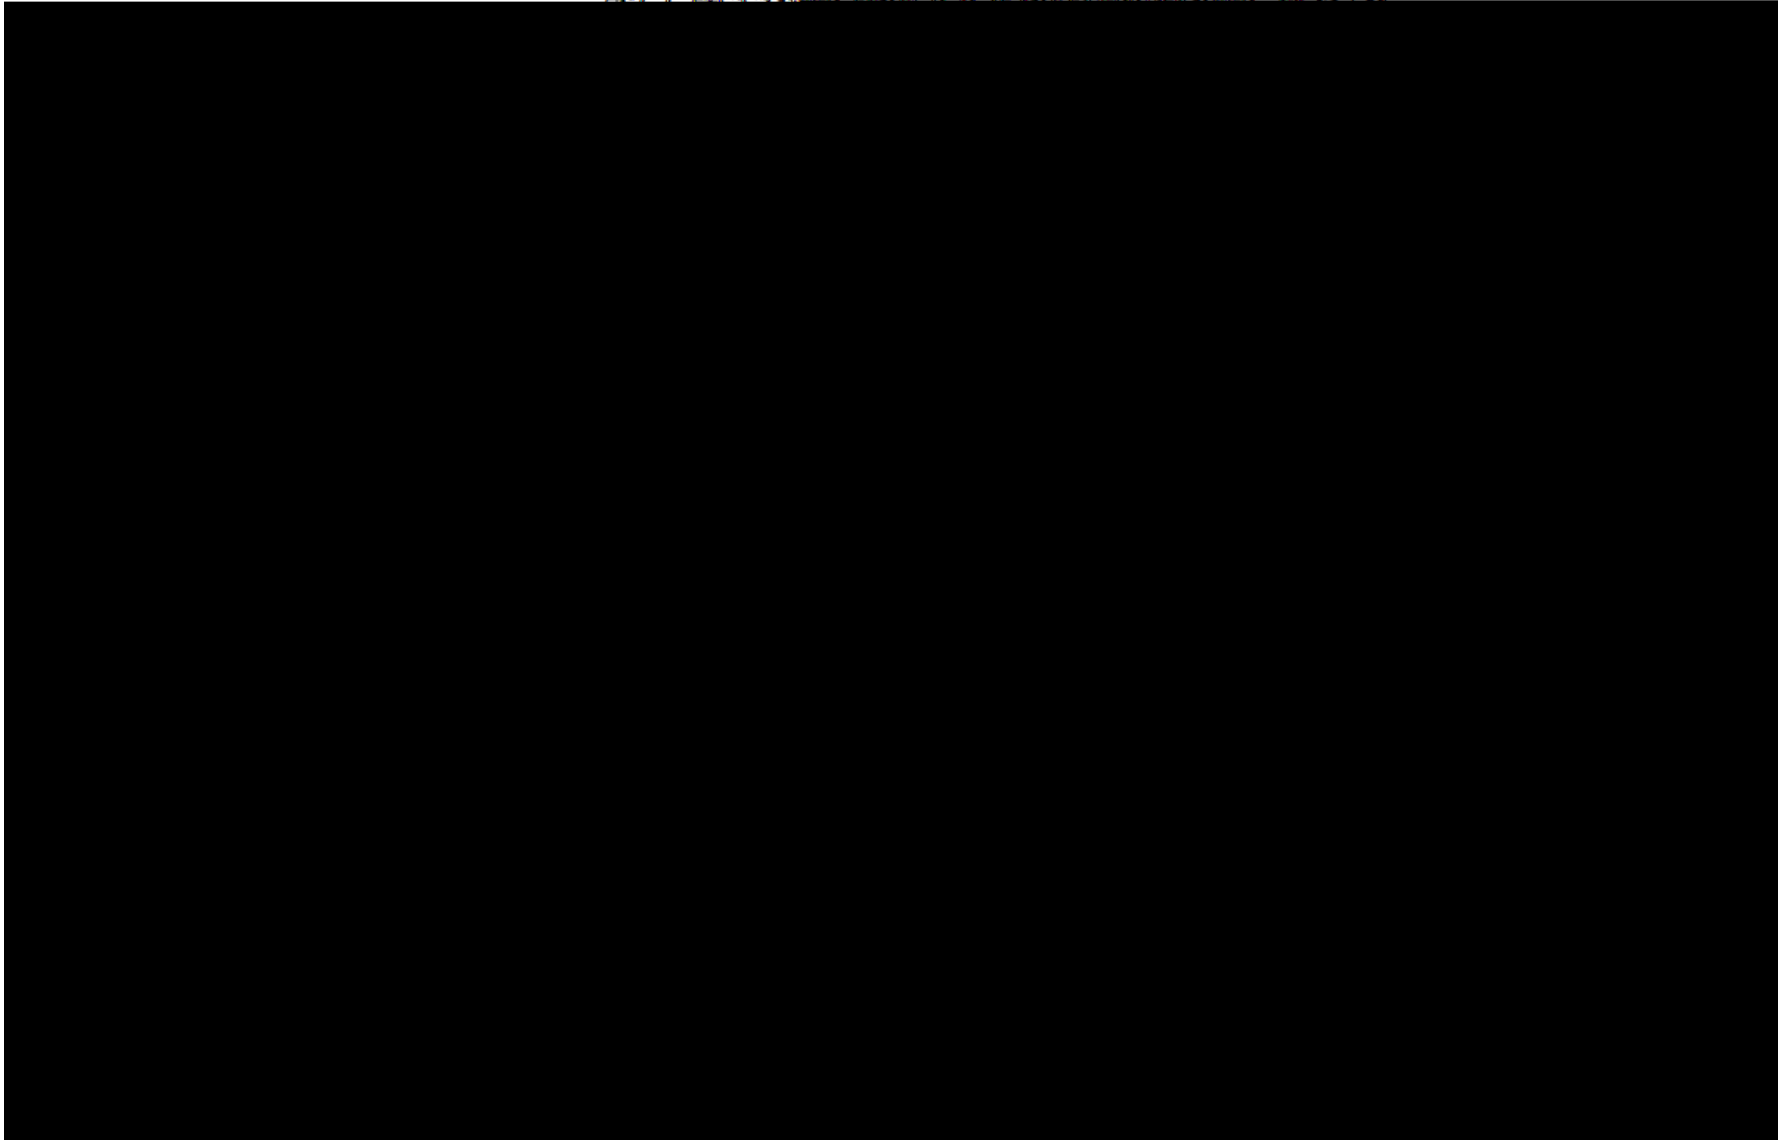

Before proceeding further, verify that you are using VPN to log onto the WSU network. The server is [vpn.wichita.edu](https://vpn.wichita.edu). Your log on username is `yourwsuid` and your current password. Further instructions are given below.

Download and install VPN

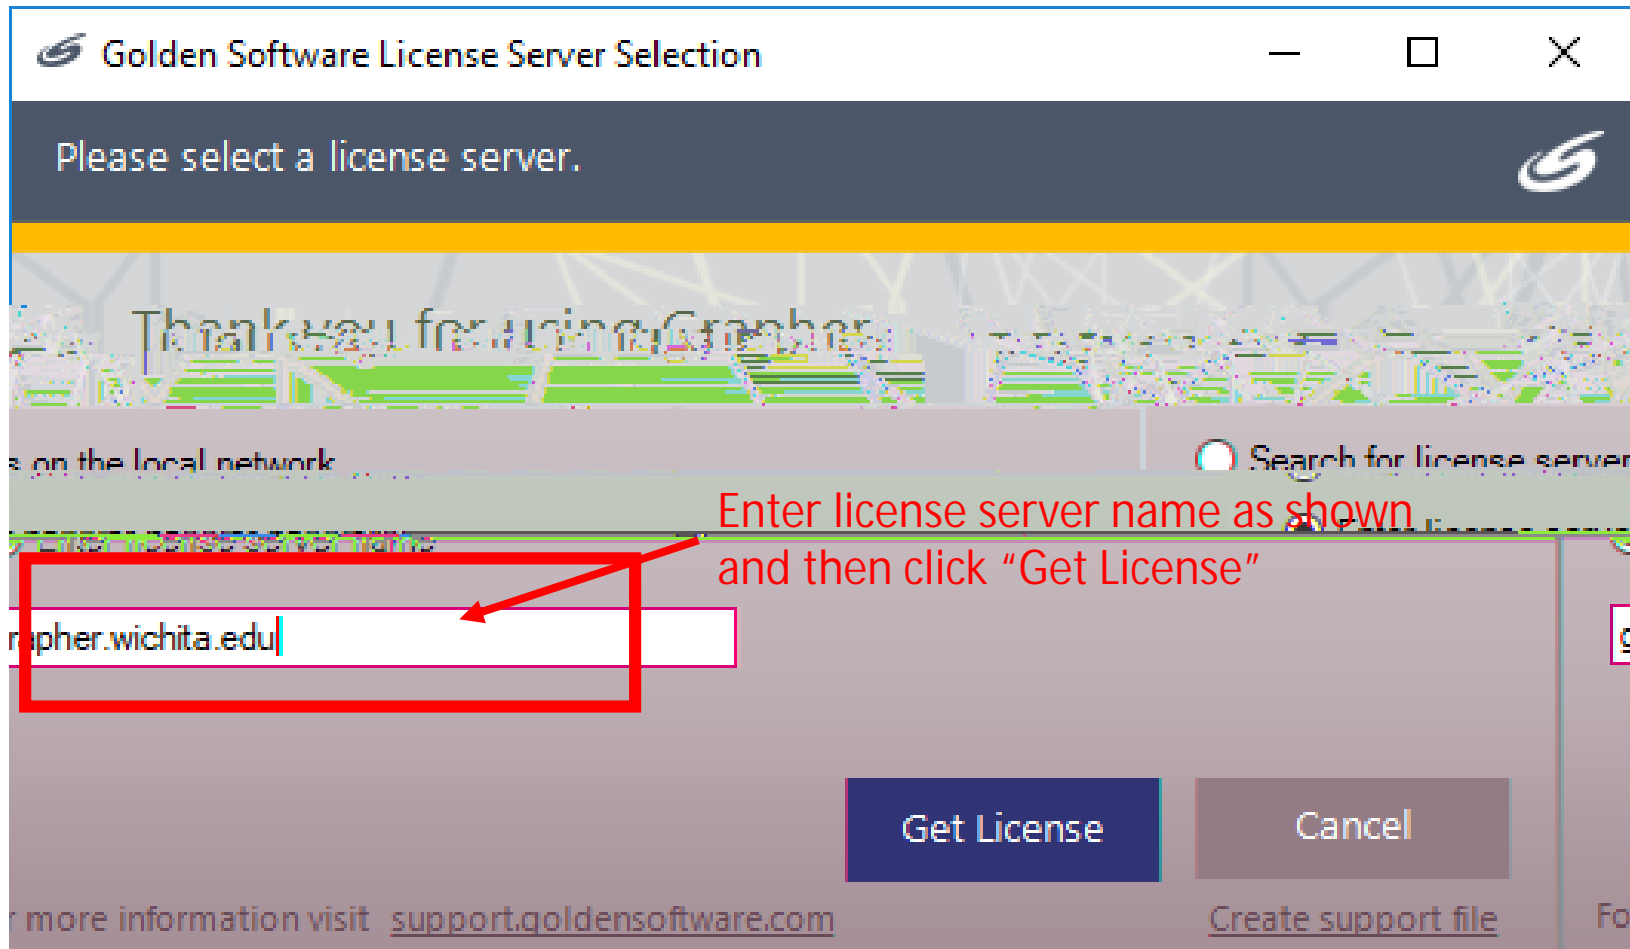

# Start VPN

Access point configuration VPN

# License Setup

On clicking Select License Server, the following page will pop-up. Select Enter license server name and enter the server name as “grapher.wichita.edu”. Click on Get License. The software will contact our license server and verify that you are allowed access to the software. Once it does that, you are on your way to using Grapher

# You are ready to plot!

You are now ready to use Grapher
