Frequency of Meetings

The committee usually meet every other week on Friday.

Work Undertaken by the Committee

In light of the recent request by the Kansas Board of Regents to cap degree programs at a total of 120 credit hours and requests from the College of Engineering to examine credit hour requirements rather than total course standards, the General Education Committee recommends that the issue of revising the General Education Program be placed before the Faculty Senate. While the goals and outcomes of General Education have not been called into question, the best method to achieve those goals and outcomes while balancing the demand of the major bear a revisiting by the body of the faculty. Accordingly, the General Education committee requests the Faculty Senate take up the question of whether to examine the necessity to revise, maintain, or replace the General Education Program as currently practiced.

Frequency of Meetings

The committee met the week of January 7-11.

Work Undertaken by the Committee

Deliberated on 12 Non-Tenure Track candidates for promotion and 39 Tenure Track candidates for tenure and/or promotion. The final day was spent evaluating new Tenure and Promotion documents provided by three different colleges:

- Health Professions
- Fine Arts
- W. Frank Barton School of Business

The Committee passed the documents for the Barton School and the College of Health Professions. They have requested clarification and some changes from the College of Fines Arts, and will discuss their document after receiving the updated document.
