

"At the end of FY 2020, the Board expressed a strong desire to develop a more robust system-based approach to facilitate student transfer. Building on this vision, in FY 2021 and 2022, the Board established a goal to develop a systemwide general education (GE) package under a common framework. When framing this goal, the Board instructed Board staff to develop a system-based GE package that would maximize the application of credit throughout the system, simplify processes for transfer students, and remove barriers for transfer students."

The policy revisions and additions pertaining to GE and the application of transfer GE credit were approved by the Board on June 15, 2022.

The systemwide GE program framework is to the right and is comprised of 34-35 credit hours organized in six discipline-based

Each KBOR institution determines that a student has satisfied the system-wide GE requirements. KBOR mandates that a student transferring to WSU from any KBOR institution with this notation will have satisfied the requirements for GE at WSU

Grading

specific GE course(s), it cannot require a transfer student who completed the systemwide GE to retake and ultimately earn a higher grade in such a specific GE

the student is pursuing a program with a grade standard that is required to meet selective admission criteria or is necessary to meet programmatic accreditation or licensure standards, the student may be required to retake a GE course and ultimately earn a higher grade.

Performance Courses (see the Arts and Humanities Bucket)

If a receiving institution prohibits native students from using a performance course (e.g., piano I) to apply toward the six-credit-hour arts and humanities bucket, it cannot enforce the same standard when a transfer student completed the systemwide GE.

This statement below has led to the most confusion and concern by the committee. Adademic Affairs is seeking.

An incoming transfer student who completed the systemwide GE can be required to complete additional GE when the student:

pursues a major for which the Board President and CEO has granted permission to <u>continue requiring</u> and not waive a specific course requirement that is classified in the GE area of the degree; or

pursues a major at the receiving Kansas public institution for which the Board President and CEO has granted permission to <u>deviate from the systemwide GE</u> <u>requirements</u>.

10.

The KBOR framework leaves little room for variation except in the institutional bucket (#7). In general,

- Total required credits hours in the Gen ed program are reduced from 36 to 34-35.
- The Fine art Discipline has merged with humanities. Students now pick two subjects within this larger bucket.
- Math and Statistics have been separated to a district discipline from Natural Sciences.
- All students are required to take a NS Lab.
- There is no requirement for course number 300

• There is no restriction of the amount of major or program requirements which can be applied to GE, but student must fulfill the two-subject requirement in buckets #5 and #6.

The GE committee recommends the formation of a standing diversity committee to review the diversity attribute for all courses including GE courses.

The GenEd Committee has provided new GE policy which complies with the KBOR framework.

- In addition to the policy proposal, we have also provided:
 - Differences to the previous policy.
 - A FAQ to answer some of the most common questions.
 - Full listing of WSU GenEd courses divided into buckets.
 - Sample student programs.
