

General Education Implementation

General Education Framework

Implementation Steps Completed

1. Review of existing approved GE courses to insure appropriate placement in each of the 7 Buckets. Review includes the courses that are not appropriate for Buckets 1-6, because they are not discipline specific, or science courses that have no lab, but may be used in Bucket 7 by students needing a substitute for First Year Seminar or Diversity course. To be completed by May 15, to be submitted by June 1.
2. Review of all program requirements to identify majors that may need an exception to a bucket requirement. To be completed by July 15 for submission by July 30.
3. Review of all program requirements to identify majors that require courses with GE attribute that transfer students will have to take regardless of GE completion. To be completed by July 15 for submission by July 30.
4. Begin work in departments/colleges to submit required program changes through the
