

practical experience through internships or work experiences at hotels, resorts, restaurants, or other hospitality-related businesses.

In addition to the hospitality-specific courses, students will also take business courses such as accounting, finance, marketing, management, and organizational behavior. This provides students with a well-rounded education that prepares them for a variety of leadership roles in the hospitality industry.

Program Objectives

1. Provide students with core knowledge and skills in all business functions (management, marketing, accounting, finance, HRM).
2. Equip students with core knowledge and skills to be successful professionals in the hospitality sector.
3. Prepare students with cutting edge awareness about the fast-changing sector of the hospitality industry.
4. Equip students with technical and soft skills to become adaptive leaders in the hospitality field.
5. Expose students to practical aspects of pursuing careers in hospitality.

Partnerships. The program is designed to serve as completion program for technical schools and community colleges with 2-year degrees in culinary arts, hospitality, and tourism. We have already established working relationships with WSU Tech and Butler Community Colleges. Both institutions have recently launched new program to support the growth and prosperity of Greater Wichita and the area. We will rely on these partners to offer the technical skills necessary for our graduates to become well-rounded professionals in the hospitality sector. We also envision a collaboration with the existing Hospitality Management Concentration of the BS in Workforce Leadership offered by the College of Applied Studies in Wichita State University.

VIII. Core Faculty

Three of the required courses will be taught by lecturer – industry professionals or academic experts from other institutions that will be paid per course. The typical pay for lecturers (a.k.a, adjunct faculty) is between \$4,000-\$8,000 dependent on their qualifications and experience.

This approach assures diligent use of resources while the program is in its infancy. It is also the most effective way to bring cutting edge knowledge and practicality to the students in the program.
