3.) A statement that analyzes the quality of the program as assessed by the curriculum and impact on the students.

Needed Improvements

has to be covered by Economics department faculty.

The first obvious improvement would come from and increase in the size of the faculty. Finance 340 and Finance 850 – the two introductory courses – are required courses for all business graduates – undergraduate or graduate, respectively. Given current staffing, most students are taught introductory finance, FIN 340 (required of all business students) and FIN 440 (required of all Finance majors) with one lecturer and several adjuncts. In the last two program reviews, the department suffered from a similar problem, but there were more full-time tenure-track in addition to one lecturer.

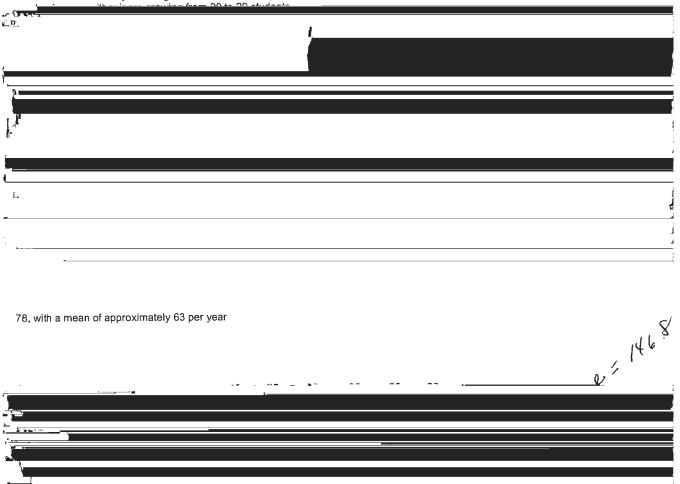

Program structure

Student Quality

universities both inside and outside of Kansas. Further evidence of employers' satisfaction with the Barton school's Finance program can be seen in their eagerness to work with students of Finance in the Cooperative Education program. Large numbers of students each semester choose to earn academic credits in Finance while gaining valuable real-world experience through this program. Co-op students in Finance have been placed with a variety of both regional and national employers, including Koch Industries, Commerce Bank, Bombardier-Learjet, Emprise Bank, and a variety of insurance and brokerage firms within the region.

As can be seen in the table below, the Finance Major is quite popular among students and the number of declared majors has grown over the review period from 194 to 223 in the current

versions of the same class. With the average total class size in these courses exceeding 50 students, most of whom are undergraduates, it goes without saying that a true graduate experience is virtually impossible to provide. It has been made clear by the graduate school that The financial management of business firms, whether manufacturing, retailing, wholesaling, or services, is vital to the success of all firms. Many of the finance majors that graduate from the ha.
